

Situated right on the beach, Costablanca condominium is one of those rare opportunities to invest in both property and lifestyle. This really is luxury living at affordable prices and a chance to realise your dream.

Located in Porto Das Dunas between Fortaleza and Aquiraz, Costa Blanca is the very last condo project on the beach. Famous for Beach Park, the largest water park in South America, Porto Das Dunas has miles of pristine white beaches. If you want to feel the buzz of the city just head North, if you want to escape from it all and be alone on the beach then choose South. A truly unique location that has something for everyone.

The rental potential for Costa Blanca is second to none, thanks to its superb location, local amenities and quick access to transport links. As tourism begins to build in anticipation of the World Cup and the Olympic Games, Costa Blanca will benefit thanks to its great location.
